

Unit 4 Introduction to Trigonometry

4.1 Revision on Right-angled Triangle

Competencies

- define a right-angled triangle
- identify the hypotenuse, opposite and adjacent of a right-angled triangle
- describe the basic properties of a right-angled triangle

4.2 Trigonometric Ratios

Competencies

- find trigonometric values of angles from trigonometric table.
- solve word problems related to trigonometric ratios.
- determine sine, cosine and tangent of angles between 0° and 90° from a trigonometric table.
